Citizens to Freeze Out "Wild catters" and Organize Own Company

A great many oil men are coming in from every section of the county and investigating therought the oil showing at the city light plant. The amount of oil gradually increases as the delining processis and men who paid little on no attention to the showing made three weeks ago are the most entherstantic oil boosters in the community now.

CONDITIONS OF MONEY

hearing appreciation at all the serious appreciations and further stringers domestic money conditions were the governing influences of this week's contracted and irregular stock market. Traders were at first inclined to ignore the further collapse of international credits, but that momentous situation was later used as a lever by the shorts to affect freels liquidation. The market was comparatively frefrom weak spots, save in some of the low-priced oils and miscellaneous specialties, whose infronse values and industrial dividend status formed the basis of renewed discussion.

Steels, equipments and motors were relatively steady, when not firm to strong, their tone reflecting the financial exhibits of such representative industrial companies as the United States and Bethiehem Steel corporations.

Investment conditions continued to be influenced by the higher rates of discount, the bond market, especially in domestic and war floations, tending to yet lower levels.

It was the general testimony of con

arrative banking interests, however, that the policy of the federal reserve board already had borne fruit, mainly by the reduction of loans at principal reserve centers.

SUSTAINS QUOTATIONS

CHICAGO, Jan 31—Although inadequacy of the stock of corn on hand has resulted this week in higher prices for January and February deliveries, the later months have shown a noticeable downward, slant. Uncertainty as to financial conditions had a depressing influence on all but the nearby deliveries. Compared with a week ago, corn appreciations this morning varied from he ries. Compared with a week ago, corn quotations this morning varied from le seeline to 3½ advance. Outs were unchanged to ½ % higher. In the provision list the net differences spanned from 7% decline to a gain of 2½. Despite Indications of strenuous effort to overcome railway traffic difficulties and to hasten the crop movement, the stubborn fact could not be impaced that the amount of corn in ignored that the amount season and the visible supply as a whole was the smallest in 30 years.

Buying for the scaboard gave firmness to cats. t'hicago was far less than usual at thi Provisions averaged lower in sympa-thy with foreign exchange
